PUTTING THE SPRING BACK IN YOUR DOG'S STEP

You may not know your dog is in pain until it has become too much for them to conceal, here are some indicators:

- Limping, unable to fully weight bear on one or more legs
- Having difficulty jumping on / off the sofa or into the car
- Character changes, grumpy with people or other dogs
- Appearing to age overnight
- Problems getting up / lying down
- No longer keen to go for a walk
- Performance issues, eg dropping poles, missing entries
